Not this you should buy this file. if the file does not ask for a download then you can simply. This Alcatel OneTouch Fierce 2 7040N Stock Firmware file is the latest firmware for the Alcatel OneTouch Fierce 2 7040N Device and for this Firmware you need to have The latest version for Alcatel OneTouch Fierce 2 7040N Device is Firmware version 6.0. After downloading the Alcatel flash file firmware, copy the Flash file which you downloaded in this post to your device storage. Then connect your device to your computer. The flash file of Android OS is a compressed file, so you will have to unzip it. After that, run the WinRAR software and unzip the downloaded file. Now run the installer file which you have just unzipped. This will install the newly flashed firmware version on your Alcatel 5040D. If you see FAILED TO FIND DEVICE INFORAME in the middle of the flashing process, then you may have locked your device. To unlock it, search for Android ADB in your phone or tablet, and follow the steps to unlock your device. You can now install official drivers which are also flashed with the Alcatel flash file firmware. These drivers allow the device to sync with the PC. You can install the drivers by clicking on the button on the bottom of the screen. Click on the button that says Update driver. 5ec8ef588b
